The fact that the income achievement gap is large when children enter kindergarten—and does not grow substantially during the school years—suggests that the primary cause of the gap is not unequal school quality. In fact, the data in Figure 2 show that schools may actually narrow academic achievement gaps, rather than widen them.

Highlights We define the concepts relevant for yield gap analysis. We review different methods for local and global yield gap analyses. Global methods are coarse and local studies use different methods. A number of methods is compared using data sets from three regions. Components of a protocol for global yield gap analysis with local relevance are proposed.
