COMPONENTS OF INFORMATION TECHNOLOGY

Information Technology (IT): Just as the Internet and the Web have affected all of us, they have affected computer technology as well. Today, communication links to the Internet are a common feature of almost all computer systems. Information technology is a modern term that describes this combination of traditional computer and com-

INFORMATION TECHNOLOGY, THE INTERNET, AND YOU

A 1958 article in Harvard Business Review referred to information technology as consisting of three basic parts: computational data processing, decision support, and business software. This time period marked the beginning of IT as an officially defined area of business; in fact, this article probably coined the term.
