Water privatization is used here as a shorthand for private sector participation in the provision of water services and sanitation. Private sector participation in water supply and sanitation is controversial. Proponents of private sector participation argue that it has led to improvements in the efficiency and service quality of utilities.

Water privatization - Wikipedia

CDC works with the private sector because public-private partnerships advance CDC's mission of protecting Americans. Americans and CDC can accomplish more working together than separately.

Public-Private Partnerships and CDC

Australian governments have developed national guidelines for the delivery of infrastructure projects to promote cross-government consistency and the use of best practice approaches. These guidelines cover the main approaches to project delivery and include:

The Presidential Innovation Fellows program brings the principles, values, and practices of the innovation economy into government through the most effective agents of change we know: our people.

Meet the Fellows | Presidential Innovation Fellows

A value network is a business analysis perspective that describes social and technical resources within and between businesses. The nodes in a value network represent people (or roles). The nodes are connected by interactions that represent tangible and intangible deliverables. These deliverables take the form of knowledge or other intangibles and/or financial value.
