According to Robin A. Williams and David Edge (1996), "Central to social shaping of technology (SST) is the concept that there are choices (though not necessarily conscious choices) inherent in both the design of individual artifacts and systems, and in the direction or trajectory of innovation programs.". If technology does not emerge from the unfolding of a predetermined logic or a single ...

Actorâ€™network theory (ANT) is a theoretical and methodological approach to social theory where everything in the social and natural worlds exists in constantly shifting networks of relationship. It posits that nothing exists outside those relationships. All the factors involved in a social situation are on the same level, and thus there are no external social forces beyond what and how the ...
